C++, Java, Python | Software and Web Development | Aspiring Developer fwand065@uOttawa.ca

Ottawa, Ontario LinkedIn | github.com/francdo30

SUMMARY OF QUALIFICATIONS

- Software Engineering co-op student at the University of Ottawa with a college diploma in Computer Programming
- 5+ years of experience developing software, web applications and databases as a freelance developer
- Proficient in C++, Java, Python, C# and JavaScript, and in MySQL, SQLite and MongoDB databases
- Strong customer service and problem-solving skills developed as a technical support advisor
- Proficient in Microsoft Office (Word, Excel, PowerPoint, Access); taught it to company employees
- Fluent in French; intermediate English

EDUCATION

Bachelor of Applied Science in Software Engineering (Co-op) Sept. 2026 – Present
University of Ottawa, Ottawa, Ontario

- Expected graduation: Dec. 2030

Ontario College Diploma in Computer Programming May 2025 – June 2026
La Cité, Ottawa, Ontario

Professional Bachelor's Degree in Information and Communication Technologies Oct. 2013 – Oct. 2016
Université Protestante d'Afrique Centrale, Yaoundé, Cameroon

- Studied computer science, electronics and telecommunications

SKILLS

Technical Knowledge

- **Programming languages:** C++, C, Java, Python, C#, JavaScript, TypeScript, SQL
- **Web development:** HTML, CSS, React, Angular, Vue.js, Node.js, ASP.NET Core MVC, Django, Tailwind CSS, Bootstrap, jQuery
- **Desktop applications:** .NET MAUI, Windows Forms, Java Enterprise
- **Databases:** MySQL, SQLite, MongoDB; schema design, stored procedures, triggers and views
- **Tools and systems:** Git, GitHub, Visual Studio, Windows, Linux (basics), WordPress

Software Development

- Designed applications end to end, from requirements analysis to delivery, over 5+ years of freelance work
- Applied object-oriented programming principles in Java, C++ and C# in college and professional projects
- Learning Agile Scrum and the software development life cycle in the Software Engineering program

Communication

- Explained technical concepts to non-specialist customers and employees, both by phone and in training sessions
- Collaborated with field technicians to resolve customer-reported outages quickly
- Worked independently or in teams and met deadlines, including under pressure

PROJECTS

- **Infosweek, classified ads web platform (ASP.NET Core MVC, SQL, jQuery):** designed and built end to end a web application for publishing and browsing ads for AVstudio (Douala, Cameroon), including the service layer and SQL scripts
- **NexSchedule, scheduling management for institutions:** built an application that handles all scheduling for educational institutions, including exam scheduling and group management
- **DrakaAntivirus, Windows antivirus (C#, Windows Forms):** developed for Red Talent Board (Canada) a prototype with full and automatic scans, download scanning, USB drive detection and scan reports
- **Library management application (C#, .NET MAUI):** created a desktop application for managing a library as part of the college diploma
- **E-commerce websites (React, Tailwind CSS):** built several mobile-friendly online stores for clients
- **Wanmou Vois Tous, parental control:** programmed an application that blocks websites chosen by parents and alerts them when a dangerous site is visited

RELEVANT WORK EXPERIENCE

Technical Support Advisor, Levels 1 and 2 Jan. 2017 – June 2022
Intelcia, client SFR, Cameroon

- Diagnosed ADSL and fibre-optic Internet network faults using internal tools and dispatched field interventions
- Guided customers of SFR, a French telecommunications provider, remotely through connecting their network equipment
- Coordinated SFR field technicians on the network and performed remote interventions

Freelance Software Developer Sept. 2016 – June 2021
Red Talent Board, Cameroon

- Developed software and web and mobile applications for public administrations, small and medium-sized businesses, digital agencies and startups
- Designed relational databases and wrote SQL scripts: tables, views, stored procedures, triggers and functions
- Identified and fixed software defects to deliver stable applications
- Delivered paid training on Microsoft Office and programming to employees of small and medium-sized businesses

IT Intern June 2016 – Oct. 2016
Société Immobilière du Cameroun, Cameroon

- Developed a Java Enterprise application that authenticates employees with electronic access cards and a database
- Maintained software on computers, scanners and printers, and supervised the company's small data centre
- Trained employees to use Microsoft Office

EXTRACURRICULAR ACTIVITIES

Reading: scientific and technology journals to keep up with the field
Leisure: sports and cinema
